"To be honest I went in a little hesitant – a 3 hour session on zoom! But it flew by and left me wanting to know and understand more. It was the most fun I had at INSET all week!"

"Fabulous and engaging presentation"

"Working with Norfolk LGBT+ Project has been amazing for our academy community. We are very fortunate to have such a responsive organisation that understands what support our students need and who are active in supporting them and helping staff get a greater understanding of how we can build a more inclusive environment for everybody. The Educating With Pride programme has given staff and parents access to resources which help dispel misconceptions and show us how we can make a positive difference in the lives of our pupils. Alongside this support, Norfolk LGBT+ Project give one-to-one support to pupils that benefit from feeling supported by somebody who has experienced the world in a similar way to them. This support really makes a difference – I've seen how their sessions have transformed our students' outlooks and attitudes and helped remove fear and a sense of isolation from their lives. I feel supported as an educator and I know that whenever a thorny or unexpected issue around gender or sexual orientation comes up, I can ask a local expert to support me and receive guidance at the drop of a hat."

"Really useful and extremely informative session. Feel quite embarrassed about how little I actually knew prior to the sessions! Well done for presenting the content of the course in an easy to follow and comfortable manner. I feel more confident now in having much more valuable and 'correct' conversations with friends, colleagues, students and their parents/carers going forward. Thank You."
